## Definitions

**MP or mp:** Milepost (see page 29).

**WI-FI:** Wireless Internet connection, usually high speed.

**Housekeeping:** Equipped with cooking facilities, pots, pans, dishes & utensils so you can keep house, not daily maid service.

**Modern:** A bathroom (toilet and hot shower or tub) are in the cabin.

**Rustic:** Either describes atmosphere/style, or means a bathroom is not inside the cabin, but usually in a nearby building.

**Vacation Homes:** Generally have 3+ bedrooms, separate living areas (kitchen, living room) and more modern or complete amenities than a cabin, such as a washer and dryer.

**Suites, Townhomes and Condos:** Have bedroom(s), sitting area and cooking facilities.

**Lodge Rooms:** Usually entered from inside the lodge, include linens, a bathroom in the room or a shared bathroom down the hall.

**Camper Cabins and Yurts:** Inexpensive, non-housekeeping, rustic and sometimes primitive. Usually no heat or linens so bring your own sleeping bags/blankets. Think of them as a "wooden tent." (Usually at campgrounds)

**Campsites:** Suitable for overnight camping for a family usually have a fire ring or grill, picnic table, accessible to nearby drinking water, and restrooms. Restrooms at privately owned campgrounds and RV parks have hot showers. Many state parks have coin operated showers.

**Tent Sites:** For a tent, pickup, van or car.

**RV Sites:** Usually have utility hookups for an RV (recreation vehicle) such as a motorhome, camping trailer (pop-up), 5th wheel or travel trailer, pickup camper, or van.

**Full Hookups:** RV site with its own electrical, water & sewer connections.
